YOUR SUCCESS IS OUR COMMITMENT.

Reflections-

I always believe that teaching is not restricted to academics only but it is a path to go beyond the horizons in order to unlock students' potential. Smartshala is one such institution which focuses on building one's persona. It has helped me become more diligent not only towards studies but also every activity in life. The teachers here always treated me as their own child and helped me inculcate all the goodness of the world. The best part here in the activities they organise. It really helped me boost my confidence. In a nutshell I would I would say, that smartshala has unbolt my inner potential to its fullest as of now.

-Richa Sharma, Class XII (2019-20)

I joined this institution when I started with class 9th. I had no experience of tuitions before this one as my mother was my teacher till then. But then I decided to study independently under the guidance of a teacher so that I can score good grades and focus on personality development too. We met Manav sir at Smartshala and I was impressed by him as I found him to be a fun loving and an understanding teacher. It was from then that I changed my learning skills, my English improved and I started to have a much better attitude towards life and career. My parents also witnessed a change in me as I evolved as a human being and became a better student. I pay my regards to Manav sir who has always supported me and guided me in every aspect. I love my sir and I'm blessed to be a part of this institution.

-Pranay Jain, Class X (2020-21)

Smartshala has helped my child to be an independent child what I was continuously striving for. He has started to take interest in studies and started to open up on social platform. Earlier he was a little shy in expressing his opinion and emotions but now he comes out with his ideas and believes that I appreciate the most.

-Mrs Madhuri Jain, mother of Yuvraj Jain
